Supplementary Educational Services (SES)

Kanmas is a state approved provider of Supplementary Educational Services (SES) under the No Child Left Behind Act. SES is open to students who are challenged academically, economically, and show the need to develop basic skills to meet the state standards for their particular grade levels. The competence of these students in reading and math is usually one or more grade levels below their supposed grades. This requires that such students be placed into remediation tutoring to improve achievement. The following are the key components of the state approved Supplementary Educational Services (SES):

- Pre- Assessments are administered at the beginning of each tutoring period to provide a deeper understanding of student's deficiencies and to guide instruction and the customization of each student's package.
- Services offered improve student achievement by using over 20 academic performance improvements (API) strategies and hands-on-learning activities to help each child learn independently. This has been shown to improve the achievement of 86% of participants.
- Student progress is communicated to parent and classroom teacher through monthly meetings, letters and

academic advising sessions to review academic progress

- Tutoring services are delivered in small teacher-student ratios.
- Tutoring is FREE based on student academic need and parental income.

FREE Tutoring Programs

Tutoring (On and Off-Site) serves K-12 students in Math, Reading and Science with a 1-5 teacher-student ratio.

Distant e-Learning (On-Line) with a live tutor can serve students 6-12 anywhere in the world in a one-on-one setting.

Cognitive Diagnostic Assessments and Remediation serves grades 5-11 in Math, Reading and Science with a 1-1 and small group teacher-student ratio.

College Prep- study skills, Test Taking Skills-SAT Prep) for grades 9-12 in Math and Science with a 1-15 teacher-student ratio.

Additional practice after school through the mentoring of private tutors can put challenged students on a path to excellence.
